EDUCATION

Bachelor of Information Technology (Computer Science) - Distinction

Graduated July 2026

Queensland University of Technology | Brisbane, QLD

- **GPA** - 6.2 / 7
- **Executive Deans' Commendation for Academic Excellence** - 2023 Semester 2
- **Relevant Subjects** - All Subjects Below Have Received A "Distinction" Grade or Above:

IT Systems Design, Database Management, Programming Principles, Cybersecurity, Discrete Structures, Algorithms and Complexity, Microprocessors and Digital Systems, Enterprise Systems, Network Systems and Administration, Web Computing, Rapid Web Development, Blockchain Development

Queensland Certificate of Education

Graduated 2022

Clairvaux Mackillop College | Brisbane, QLD

- **ATAR** - 87 | **Top in Class** - Psychology (2022), Film Television and New Media (2022)

EXPERIENCE

Kanavoogle – Brisbane City, QLD

Software Engineer Capstone Intern – AI & Full Stack

Mar 2025 – July 2025

- Developed a cross-platform mobile app prototype using **React Native**, delivering key user-facing features from concept through implementation.
- Collaborated directly with the business director to refine product features, translating non-technical requirements into technical solutions.
- Acted as AI lead in team of 4 for the project, designing an integration plan for a **fine-tuned local LLM**.
- Delivered a technical proposal for model deployment; implemented backend scaffolding to support local LLM integration to enable seamless deployment targeted for Q3 2025

PROJECTS (ALL PROJECTS AVAILABLE FOR PERUSAL IN [PORTFOLIO](#))

Gifler | AWS, EC2, S3, Route53, DynamoDB, SNS, Lambda Node.js, Express, Bootstrap, Javascript

Cloud-based GIF encoding platform

- Designed and deployed a horizontally scalable web app for encoding GIFs from user-uploaded images using a microservice architecture.
- Leveraged AWS services for scalability and performance: EC2 (compute), S3 (file storage), DynamoDB (metadata persistence), SNS (queueing), and Lambda (event-driven processing).
- Built authentication and image processing logic in Node.js with a Bootstrap-based UI; containerized backend using Docker and deployed with Auto Scaling Groups.

Personal Portfolio | React, JavaScript, TailwindCSS, .NET, Entity Framework Core, PostgreSQL

Publicly deployed full-stack portfolio containing past projects and skills

- Built and deployed a responsive full-stack portfolio website to showcase projects, technical skills, and professional experience.
- Developed a RESTful ASP.NET Core backend with Entity Framework Core and PostgreSQL to serve structured project and skill data.
- Implemented searchable and filterable project listings using a normalized relational database with many-to-many project-skill relationships.

TECHNICAL SKILLS

Languages: Typescript, JavaScript, Python, C#, SQL, Solidity

Frameworks/Libraries: .Net, Node.js, React, React Native, Express, TailwindCSS, EF Core

Developer Tools: AWS, Docker, Git, Postgresql, CI/CD, VS Code, Linux, Vercel, Render

REFEREES

Will be supplied upon request.
